Grant Ritchey Jr

@drOz Can you recommend a cleanse for my brain after reading pseudo-scientific stuff like that from you a physician?

View this tweet

Mat Mychajliv-Kadian

@GrantRitchey @drOz best cleanse is exercise. lotsa H2O only eat lotsa veggies. everyone always trying to come up with the next new thing

Grant Ritchey Jr

@MatMychajliv @drOz And what exactly are you cleansing when you do that? Of course good diet, exercise, and hydration are good things.

Mat Mychajliv-Kadian

@GrantRitchey @drOz Probably toxins like drugs n alcohol, greasy fast foods etc maybe prescription overload and smoking water cures all!

Grant Ritchey Jr

Dr Oz thank you for doing this and for listening to Corey. It is people like you who allow victims to stand up for justice 🙏🙏

Annette Smith @Smitty646 · 2 Kas

Crying my way through this show right now, thank you Dr. Oz for your support of [illegible]. Others would not believe him, so thank you.

Why wait to make a movie just to name the pedophiles why take longer to name them and have them continue to abuse children

Absolutely switch to eating affordable sustainably caught Wild Alaskan Pollock. Not only natural but much healthier choices than talapia

Hey @Netflix since you stood up for what was right with Kevin spacey how about helping Corey Feldman out by saving more kids from being abused in the future. Hollywood needs to change and Corey's trying to do that by protecting innocent kids so please help him

Replying to @DrOz @Corey_Feldman

Dr Oz why does it seem like you're the only one in entertainment who cares ? I am so confused why even after documentaries like An Open Secret high profile people aren't backing [illegible] Feldman Thank you for exposing this ❤

Do spicy foods boost your metabolism?
Do skinnier people have faster metabolisms?

It's time to separate myth from fact when it comes to metabolism.

Replying to
@DrOz #OzsInbox Why have you not been censured or fired from , for conduct unbecoming a physician, scientist, and gentlemen?

Vaping is not worth the risk right now. My recommendation: do not vape until we have more info about what's causing these cases of severe lung illness linked to it. Vaping could prove to be better than smoking, but it's not safe to vape until the current health mystery is solved.

Actually some inaccuracies in the text. You want a little bit of THC because it too has it's own part. Of course you want it under the legal limit at which it will not cause any "high" effects. When all parts of the plant are used you get what is called "the entourage effect"

I wear many hats - surgeon, TV host, husband & father - but being a grandparent brings [illegible] and me a unique joy. There's nothing quite like watching your kids parent & offering support and love along the way. Happy #GrandparentsDay to all my fellow grandparents! [illegible]

Eat dinner for breakfast. Stop eating when the sun sets. WHEN you eat is as important as WHAT you eat. More tips: trib.al/kpXsTN1

WHAT

- Unlimited non-starchy vegetables
- 7 oz of lean or plant-based protein per day
- 4 servings of whole grain carbs
- 3 servings of whole fruit
- Healthy fats
- 1 oz of dry roasted nuts or seeds
- 1/2 oz dark chocolate

WHAT NOT TO EAT

- Sugar
- White flour
- Processed foods
- Fried foods
- Limit red meat, cheese, and egg yolks

WHEN TO EAT

You don't need to count calories! Just make sure you're eating most of your food for breakfast and lunch

We have some great physicians helping with advice, and she is on newer medications. We're also better at picking up subtle signs and clues around lifestyle changes. For examp e mom seems to thrive after daily exercise Thanks for al your continued support ❤️

Be sure to catch me on @todayshow this AM. I'll be talking daylight saving time and sharing a two-step plan to help your body adjust. 💤🌅

My plan is simple: (1) Go to bed 30 minutes later each night. If you have kids, try to get them in bed later too. (I know it's tough.) Repeat this on Saturday.

1

Dr. Mehmet Oz @DrOz · 1m

(2) Starting tonight, eat your last meal before the sun sets. Repeat this on Saturday. Make sure there's 16 hours between your last meal Saturday & your first meal Sunday. Some researchers have found intermittent fasting can help your body reset its circadian rhythm faster.

Duane I know how hard it is to stop smoking. I did for years. It found me in hospital fighting for my life. I was hard headed and has made me go on oxygen 24/7. Don't wait that long. It's no way to live. I stop in February. It's life or death.

Duane I know how hard it's to stop smoking. I did for years. It found me in hospital fighting for my life. was hard headed and has made me go on oxygen 24/7. Don't wait that long. It's no way to live. I stop in February. It's life or death.

Start by trying to cut down. Nicotine is extremely addictive and a killer eventually but we dont hear much about that lately. It is difficult but can be done. Best of luck to you! Think of all the $$$$ u will save! Cigs are expensive!!!!

It's tough! I know personally! I've quit twice! This round I'm on 3 yrs, 8 mos of quitting. Time b4 that was 9 yrs. Starting up again in '09 thru '16 accelerated my MS (multiple sclerosis), that I didn't know I had until last year! This is the 1st day of the rest of your life!

Gross! Thankful I don't smoke. However being exposed to 2nd hand smoke I wonder what my lungs are like. I am thankful that with my hypnotherapy practice I can help people quit smoking and or vaping. #healingforthesoul

Duane I know how hard it is to stop smoking. I did for years. It found me in hospital fighting for my life. I was hard headed and has made me go on oxygen 24/7. Don't wait that long. It's no way to live. I stop in February. It's life or death.

HOW TO PICK AND CHOOSE THE PERFECT MELONS IN THE MARKET

- Those that are rounder more symmetrical, and have a filled-out appearance generally taste better
- For Muskmelons the more raised, hard netting or corking" that is dense and uniformly distributed, the better-tasting the melon
- A melon is ready to pick or eat when the skin is fairly easy to depress.
- A sweet fragrance is a good sign

Make dinner the smallest meal of the day. Stop eating when the sun sets. WHEN you eat is as important as WHAT you eat. More tips: trib.al/o0J8wl5

WHAT

- Unlimited non-starchy vegetables
- 7 oz of lean or plant based protein per day
- 4 servings of whole grain carbs
- 3 servings of whole fruit
- Healthy fats
- 1 oz of dry roasted nuts or seeds
- 1/2 oz dark chocolate

WHAT NOT TO EAT.

- Sugar
- White flour
- Processed foods
- Fried foods
- Limit red meat, cheese, and egg yolks

WHEN TO EAT.

You don't need to count calories! Just make sure you're eating most of your food for breakfast and lunch

#System20 also asks that you sleep, de-stress and connect with the people around you. Don't let your phone rule your world.

✅Replace one text conversation with a phone call once per week
✅Put your phone down 1 hour before bed.

I have done Keto, but it elevated my cholesterol level. Quit that, so now, I just try to be more mindful, and eat a balanced diet. More plant based but still eat chicken and fish, no pork nor beef nor dairy. Treadmill daily, too. In totality, I'm happy to just be kind to my body.

I had a blast at @ces this week. My big takeaway: it may sound counterintuitive, but there's more technology than ever to help you sleep. (It's never been more needed.)

The rose-colored glasses & scented eye mask are just the tip of the iceberg, per @sleepscore.

Just because something may get labeled as "healthier" doesn't mean it's healthy. Just like "lower fat" isn't always good for you. Since the day this came out I wondered how healthy it is when they add so much junk to make it taste like meat.

Depends on the person and what kind of day one is having. Breakfast, breaking the fast. Eat clean and whole. Breakfast for protein is 100% different for athlete's vs those just working or not doing too much physical stuff. We need that fuel for a physically healthy lifestyle

Mark wakes up before most of us are moving in the morning and works out early so breakfast is fuel. Most of the us could do just brunch because we're not pushing our limits in the gym. They're both correct, depending on your circumstances.

One of the biggest myths out there: not wearing a hat or jacket in winter can make you sick. Being cold doesn't mean you get a cold!

2 12 37

Dr. Mehmet Oz ✓ @DrOz · 17h

Colds are transmitted by (1) direct hand contact w/someone who has a virus (2) inhaling viral particles, or (3) contact with viral particles on a surface.

Some viruses are more common in the winter, which is why people may think they have to protect themselves w/coats& hats.

Could not agree more with @tomhanks. This is a fake and misleading advertisement intended to take advantage of consumers using false claims and our likenesses illegally. I am not involved with any cannabis companies.

Tom Hanks @tomhanks

This is false and an intentional hoax. I've never said this and would never make such an endorsement. Come on, man! -Hanx

While there are benefits to the endocannabinoid system (receptors) from phytocannabinoids (CBD's) I agree the claims are nonsense Phytocannabinoids just help the body regulate itself better, just as it already tries to do with everything we give our bodies.

Could not agree more with @tomhanks. This is a fake and misleading advertisement intended to take advantage of consumers using false claims and our likenesses illegally. I am not involved with any cannabis companies.

This is false and an intentional hoax. I've never said this and would never make such an endorsement. Come on, man! -Hanx

there's people that want to be adults, though they can't get there and they think their path to adulthood is controlling children. And it's dangerous.

One of the biggest myths out there: not wearing a hat or jacket in winter can make you sick. Being cold doesn't mean you get a cold!

Colds are transmitted by (1, direct hand contact w/someone who has a virus (2) inhaling viral particles. or (3) contact with viral particles on a surface.

Some viruses are more common in the winter, which is why people may think they have to protect themselves w/coats& hats.

Dr. Mehmet Oz @DrOz · Jan 27

Should exercise when you're sick? That's a maybe. as it depends on the severity and location of your illness. Exercise is usually OK if your symptoms are all "above the neck " Don't exercise if your signs and symptoms are "below the neck," such as chest congestion.

You can reduce your risk of infection and keep others healthy:

- Wash hands with soap & water for at least 20 seconds
- Don't touch your face with unwashed hands
- Avoid people with suspected or confirmed infections

Colds are transmitted by (1, direct hand contact w/someone who has a virus (2) inhaling viral particles. or (3) contact with viral particles on a surface.

Some viruses are more common in the winter, which is why people may think they have to protect themselves w/coats& hats.

Should exercise when you're sick? That's a maybe, as it depends on the severity and location of your illness. Exercise is usually OK if your symptoms are all "above the neck." Don't exercise if your signs and symptoms are "below the neck," such as chest congestion.

This is just the 6th declaration of a public health emergency of international concern

2009: Pandemic influenza
2014: Polio resurgence in several countries
2014: Ebola epidemic in West Africa
2016: Zika virus epidemic
2019: Ebola outbreak in the Democratic Republic of Congo

You can reduce your risk of infection and keep others healthy:

Wash hands with soap & water for at least 20 seconds
Don't touch your face with unwashed hands
Avoid people with suspected or confirmed infections

I'm sad to hear Kirk Douglas – one of my favorite actors – has died at the age of 103. I loved Spartacus because it showed his passion for justice. I admired that he respected our civic responsibility to speak out on issues that matter. He'll be missed.

Have you seen the prices of surgical ear loop face masks? Local pharmacies don't have them in stock. Amazon as well. Some sellers bump up the prices like crazy. Even N95 masks are sold out or prices just outrageous. I heard those surgical ear loop face masks are ok for 2 hours

Lots of questions about masks. Here is the difference between a surgical mask and a N95 respirator. Neither are necessary for healthy people unless you are a healthcare worker. #coronavirus @cnn

	Surgical Mask	N95 Respirator
Testing and Approval	Cleared by the U.S. Food and Drug Administration (FDA)	Evaluated, tested, and approved by NIOSH as per the requirements in 42 CFR Part 84
Intended Use and Purpose	Fluid resistant and provides the wearer protection against large droplets, splashes, or sprays of bodily or other hazardous fluids. Protects the patient from the wearer's respiratory emissions.	Reduces wearer's exposure to particles including small particle aerosols and large droplets (only non-oil aerosols).
Face Seal Fit	Loose-fitting	Tight-fitting
Fit Testing Requirement	No	Yes
User Seal Check Requirement	No	Yes. Required each time the respirator is donned (put on)
Filtration	Does NOT provide the wearer with a reliable level of protection from inhaling smaller airborne particles and is not considered respiratory protection	Filters out at least 95% of airborne particles including large and small particles
Leakage	Leakage occurs around the edge of the mask when user inhales	When properly fitted and donned, minimal leakage occurs around edges of the respirator when user inhales
Use Limitations	Disposable. Discard after each patient encounter	Ideally should be discarded after each patient encounter and after aerosol-generating procedures. It should

New York has its first positive case of #COVID19. “The patient, a woman in her late 30s, contracted the virus while traveling abroad in Iran, and is currently isolated in her home.”

GOVERNOR CUOMO ISSUES STATEMENT REGARDING NOVEL CORONAVIRUS IN NEW YORK

"This evening we learned of the first positive case of novel coronavirus — or COVID-19 — in New York State. The patient, a woman in her late thirties, contracted the virus while traveling abroad in Iran, and is currently isolated in her home. The patient has respiratory symptoms, but is not in serious condition and has been in a controlled situation since arriving to New York.

"The positive test was confirmed by New York's Wadsworth Lab in Albany, underscoring the importance of the ability for our state to ensure efficient and rapid turnaround, and is exactly why I advocated for the approval from Vice President Pence that New York was granted just yesterday.

"There is no cause for surprise, this was expected. As I said from the beginning, it was a matter of when, not if there would be a positive case of novel coronavirus in New York.

"Last week I called for the Legislature to pass a $40 million emergency management authorization to confront this evolving situation. I look forward to its swift passage.

"There is no reason for undue anxiety -- the general risk remains low in New York. We are diligently managing this situation and will continue to provide information as it becomes available."

Can we all take a moment to salute the health care workers on the front lines of #covid19? These individuals always put themselves at risk taking care of patients, but COVID-19 potentially poses a greater risk.

So many Americans have valve problems, and we can all learn something from Arnold @Schwarzenegger's emergency heart surgery today:

How does the flu shot helps in Corona virus? Less chance to get it, faster recovery or less chance to die?

The elderly should avoid mass gatherings – parades, sporting events, etc. – especially if they fall in one of the high risk categories. In addition, those at high risk should avoid visiting people who have acute respiratory illness (fever, cough, difficulty breathing). #covid19

How can we protect loved ones in a nursing home or assisted living facility? The government recently issued new guideline in an effort to stop the spread of the virus. But it's also worth it to check in with the facility & see what they're doing to keep everyone safe. #covid19

Should the elderly avoid travel? They should avoid public transportation during crowded times like rush hour. They may also want to think twice about long distance trips. #covid19

Is my seemingly healthy child, from a closed school, a risk to my elderly parents? It's hard to say. They could potentially be carrying #coronavirus and not be sick, but we do not have a way of knowing at this time. #covid19

Right now it doesn't mean you can't take the kids to see grandma, but be sure to practice good hygiene. If you live in an area where you know there is community spread, you may want to consider more video chats with people at highest risk. #covid19
